Dear Principal/Hiring Manager,

I am writing to express my strong interest in the Y6-7 teaching position at your school. With 18 years of dedicated experience in Foundation Phase and Special Education, I am passionate about creating inclusive, supportive learning environments that empower every student to reach their full potential.

My comprehensive background in special educational needs, particularly supporting students with autism, Down syndrome, ADHD, and intellectual disabilities, has equipped me with unique skills in curriculum adaptation and differentiated instruction. My Bachelor of Education in Foundation Phase, combined with my current New Zealand Teaching Registration, demonstrates my commitment to high-quality, responsive teaching practices.

Throughout my career, I have successfully developed and implemented individualised learning strategies that support diverse student needs. My Makaton and Sign Language certifications further enhance my ability to communicate effectively with students who have varying communication requirements. I pride myself on creating classroom environments that are both academically rigorous and emotionally supportive.

My experience in behaviour modification and early childhood development has consistently enabled me to help students overcome learning challenges and build confidence. I am particularly skilled at designing adaptive learning experiences that engage and motivate students across different learning styles and abilities.

I am excited about the opportunity to bring my expertise, enthusiasm, and compassionate approach to your school. My multilingual background and extensive experience would allow me to contribute meaningfully to your educational community.

I look forward to discussing how my skills and experience align with your school's vision and the specific needs of your Y6-7 students.

Kind regards,

Henriette Charlotte Beeslaar
